Subject: Tomorrow's Vote

Tomorrow's Agenda includes a vote to make every June a month to recognize a group of people. Why???? This just opens up a path to recognize the next minority group then the next and onward!!! Why would you bow down to the minority people in our wonderful city?? Certainly this is not the wishes of the majority of people who live here!!!

The real courage I wish each of you would showis to stand against changing our culture... keep CARLSBAD the great well run city we have enjoyed , in my case since 1959!!! I raised 4 kids here and have 5 grandkids who will be raised here too!!

I love our city and I hope you love it too!! Vote No on allowing a minority group to change CARLSBAD !! This is not who we are.....

Very sincerely
Greg Nelson

Subject: (RE: Gay Pride month)

To Mayor Hall and The City council as a whole,

I have been recently been notified that the City Council of Carlsbad will be voting on making every June going forward Gay Pride month in Carlsbad.

First I would like to say that I have been a Carlsbad resident and business owner since 1979 and have always felt a great pride in our city and it's residence.

In the past 40 years our city has grown immensely all the while with our leadership always having the best interest of the people and our city's future in mind.

Although I feel everyone has the right to BE and believe what ever they want I also think it is very important to have the best interest of the majority in mind.

That being said I don not believe that it is in the best interest of the city to single out an event that will cause challenges from cost, to parking, to sanitation, to policing that will be burdened by the great majority of the residence.

If the LGBTQ+ wants to celebrate what they believe in, they should be able to do that on their own initiative without in any way burdening our city or the great majority of it's residence..

Let's face it if we were to give every group of individuals a month to celebrate it would be a logistical nightmare and very impractical.

Thank you all for the opportunity to express my concerns.

Sincerely,

Dr Lee A. wood
