Subject: Appointing new Council Member for District 1

Dear Mayor Hall and Council Members,

As a concerned Carlsbad resident I am very concerned about the division I see with City Council that may take away from the on going issues and concerns regarding the Village and Barrio, and District 1 in general!! I believe it needs immediate representation when Barbara Hamilton leaves her position at the end of the month.

As a citizen of Carlsbad I will be extremely upset if you waste our tax dollars by holding a special election. We had a very very close election less than a year ago.

I would hope the Council is wise enough and responsible enough to fill the position with the runner-up Tracy Carmichael.

Tracy Carmichael has remained active and has proven she knows our community, wants the best for our community and listens to both sides of all issues. When Tracy lost the election, she did not go have a pity party for herself....she became even more active!! This shows her true character and her motives to make this the best community possible!

I do not feel the need to list off all she has done for the City of Carlsbad, because you all are well aware of her involvement. However, please note I will be an extremely disappointed resident if you chose to hold a special election wasting the city's money.

I hereby request that the City Council use its authority to appoint Tracy Carmichael to complete the term of the seat being vacated by Ms. Hamilton. And thank you to Ms. Hamilton for serving our community. I know it is a very difficult job.

Respectfully,

Shawn Vandenkolk
