All Receive - Agenda Item # 11
For the Information of the:
CITY COUNCIL
Date 7/28 CA CC
CM ACM DCM (3)

Please read before the city council meeting today at 3pm.

Dear Honorable Mayor Hall and City Council,

I want to address item #11 on the City Council Agenda today, Enforcement of Facial Coverings for all Carlsbad Residents.

I believe the attached photo of Dr Fauci, The Director of Infectious Diseases, taken just last Friday, July 24th at the Nationals Baseball game with NO mask on clearly demonstrates the real science behind wearing a mask to stop the spread of Covid-19.

Please keep the freedom of Carlsbad Residents alive and not have us all live in fear!!! This disease is not going anywhere anytime soon and we are all making individual efforts to mitigate the spread. As we all know and no one is willing to discuss, the second wave is a direct effect of the 1,000's of people protesting and rioting in the streets throughout California for the last several weeks. Evidence shows the biggest spike in Covid Spread in Los Angeles county is 40 and under. Do not penalize Carlsbad residents that have been acting responsibly and social distancing.

Please vote NO on adopting resolution #11 on Facial Coverings.

Thank you,
Hilary paane

Dear Carlsbad City Council
Members,

Please keep the freedom of Carlsbad Residents alive and not have us all live in fear!!! This COVID19 disease is not going away anytime soon and we are all making individual efforts to mitigate the spread. We all seem pretty sure about it but, no one is willing to discuss the fact that the second wave is a direct effect of the 1,000's of people protesting and rioting in the streets throughout California for the last several weeks. Most citizens of CBad are co operating already with mask requests/requirements when entering businesses or stores. Evidence shows the biggest spike in Covid Spread in Los Angeles county is 40 and under. Please do not penalize Carlsbad residents that have been acting responsibly and social distancing.

Please vote NO on adopting resolution #11 on Facial Coverings.

Thank you,
Karen & Frank Amelio
Mariposa Rd., Carlsbad 92011

Subject: Item 11: face covering enforcement

All Receive - Agenda Item # 11
For the Information of the:
CITY COUNCIL
Date 7/28 CA — CC —
CM — ACM — DCM (3) —

Opposition to administrative enforcement of face coverings when these are suggestions and “guidance”, specifically for outdoors when at the beach or exercising. I am fine with complying indoors to face masks. Please consider more education and encouragement versus more control and bigger government. Where will the funds come from to pay enforcers? Here is what the health order states. Note the words “suggest” and “could”. There is scientific evidence to suggest the opposite as well.

“How well do cloth face coverings work to prevent spread of COVID-19? There is scientific evidence to **suggest** that use of cloth face coverings by the public during a pandemic **could** help reduce disease transmission. Their primary role is to reduce the release of infectious particles into the air when someone speaks, coughs, or sneezes, including someone who has COVID-19 but feels well.”

Thank you,
Joseph Enteran
