Included google maps photo pdf to show how large and disturbing to the neighbors this massive illegal slope project got before stopped, as it should have been. Obviously this STRV business was out to get higher income rent fees with this, and heck with us neighbors and city codes. Our builder's cc&r's forbid this also, which the owner got a copy of when she purchased this home in 2012, so they new it was illegal, and didn't apply for a permit, which would have been denied.
