DISTRIBUTED DURING PUBLIC
COMMENT AT COUNCIL
MEETING OF 3/23/21

My name is Lynda Daniels and as an eight year resident of Carlsbad and a member of the Sierra Club, I am very concerned about our environment! We have made some good first steps to helping with green house gas emissions with CCE and ordinances for solar in all new homes and electric water heaters. But we must declare a climate emergency for our City! We must move quickly to cut emissions Please declare a climate emergency! Help us breathe!

Subject: Emergency climate resolution

Carlsbad Council,
Think about the climate change, the oceans warming and sea rise and you should come to the conclusion that we in Carlsbad , SD county and CA must cut Carbon emissions. Promote sustainability and electrification in our city.
