I support a citizen review board to hold our Carlsbad police accountable. In this day and age, policing practices have evolved to ensure all community members feel safe. The oversight board would serve as a tool to strengthen community relationships, ensure that all of our residents & community members are treated fairly, ensure our police department adheres to state and federal changes to the laws & ensure our police department avoids any future legal settlements. The oversight board is not the only means to engage our community members however it's a critical component.
